Description

This off-grid finca in Polop combines independent living with space for guests and outdoor living, with impressive views of Monte Ponoig. The property offers three bedrooms and two bathrooms across the ground-floor main home and a self-contained apartment upstairs.

The ground floor comprises two bedrooms, a living room, a kitchen and a renovated bathroom. The upstairs apartment has one bedroom, an open-plan kitchen and living area, and its own modern bathroom: a welcoming space for family or friends who appreciate their own accommodation.

Several garden areas surround the property. The jacuzzi provides a lovely place to relax and enjoy the striking mountain backdrop. All windows have built-in roller shutters and insect screens.

The electricity supply consists of five solar panels, a 5.6 kW hybrid inverter and three Pylontech batteries with a stated combined capacity of 9.4 kWh. A backup generator supports the system during prolonged periods with little sunshine
