This spectacular villa built on a plot of 1000 m2 is distributed over two floors and with a ground floor to be developed as a separate dwelling, games room or as a closed garage.

Going up a small flight of stairs we access to the main floor where we find a spacious living room with fireplace with access to a charming covered terrace with beautiful open views and the lighthouse of Cabo la Nao. Going back we have the fully equipped independent kitchen through which you can also go out to the terrace and has a nice window with bar to the living room, two double bedrooms of which one is with bathroom en suite and a complete bathroom with shower.

We access to the first floor by the stairs that are in the dining room and we find a large room with open views.
