Description

Casa des Valls is located in the Ermita zone of Montgó³-Valls, one of the most established and sought-after residential areas of Javea. This quiet and green area is characterised by generous plots, permanent residents and maximum privacy, while the historic centre of Javea, international schools, the coastline and the city of D nia are a short distance away.

Behind an authentic, secure entrance gate, a harmonious south-facing Mediterranean estate of 3,500 m   unfolds, consisting of a main house and a completely renovated, independent casita. Both houses are clearly separated for optimal privacy and flexibility, but together form one coherent and stylish whole. The villa also has a valid tourist license, which significantly strengthens its investment profile.

The main residence was completely redesigned in 2022 in a modern Mediterranean concept by Jessica Bataille Interior Design, with a focus on natural materials, architectural luminosity, and a seamless transition
